Since I learned to wear a sewing machine at high school, I enjoyed creating homemade costumes and clothes, even my wedding dress. The elements that I make have adequate seams with raw edges that I cut and press. But what they lack are finished seams, such as well-made garments in the store. Although my sewing machine has an overlock stitch function, what I really need is a Serger (also known as Overlock Mism), a tool that does not replace but complements a sewing machine for the home. With a Serger, you can give home sewing projects an orderly and resistant finish, in a rigorous and easy way. How? The Sergers ensure end seams joining cloth pieces, cutting the sewing margin and enclosing the raw edges, all in one step. The resulting seam is not only professional aspect, but also strong, durable and elastic. Because the sergadores produce stretch seams, they are excellent for working with woven or woven fabric without compromising elasticity. Using a Serger to sew clothing made of thin elusive fabrics, such as Spandex or Lycra (for example, bathroom suits, dance clothing, training equipment), allows an attractive topint But it allows the fabric to expand and move. You can also directly sew the elastic fabric to make waists and the like. Versatility is another advantage of the Sargers, which can handle delicate fabrics such as silk, saté, gauze and organza, as well as heavy materials á € ª ª €. As mixtures, upholstery fabrics, and more. The flat seams of the sunbed in the loudly produced by the Sargers eliminate the thick and unattractive lines, as well as bulk produced by sewing lines in projects made with fabrics with fabric and heavy. You can use a server to finish edges in scarves or anything that needs ordered and delicate but strong edges. Amazon Easy and fun to use, the Brother 1034D / 4 Thread Serger with differential power ³ has versatility, reliability and high quality in operation n.³ With 22 points built in, the popular Brother 1034D 3/4 Thread Serger with differential power ³ is loved for its functionality and efficiency. Fast up to 1,300 dots per minute, this model features options including four-wire overlock, three-wire overlock, narrow hem, rolled hem and ribbon lock points. Unfortunately, this model cannot make a cover point. However, it can handle a wide variety of fabrics (e.g. formal wear, linen, even thin material and plastic), and finishes seams, edges and hems with a professional touch. By rating this model as your best selection, the Design My Costume team discovered³ that cuts the fabric cleanly and expertly sews the pieces ³. In addition to its versatility, the Brother 1034D 3/4 Thread Serger with differential power ³ can also be used to create threads and decorative edges. You also have control over other features, such as the foot pressure ² the press (through a dial adjustment), the tensiá ³ n of the thread (of each needle individually), the width of the stitch (3.00mm to 7.00mm), and an extra free arm to work on sleeves and puffs. She likes to sew praises her color-coded, numbered top-thread guides and her lower-loop thread instructions. The Brother 1034D 3/4 Thread Serger with differential power ³ also comes with pressurized interchangeable pressurizers ³ for quick and easy changes between different stitch types if necessary.It is the top selection for beginners in the thinnest thread, which describes it as "extremely easy to use", and the tool report, which praises its reliability and robustness.Advantages: Fast, easy to use and reliableDisadvantages: No option³ n Two -wire stitch, lacks the Amazon covering capacity The affordable Singer Profinish 14CG754 Serger is ideal for sewers that want versatility and quality for a good price. Three- and four-wire points, the Singer ProFinish 14CG754 Serger delivers plenty of functionality and excellent performance at a decent price. This model even comes pre-threaded with red, yellow, green and blue reels the Á and rethreading is simplified by its color-coded system that indicates the path for each thread by color.The Singer ProFinish 14CG754 Serger has eight different stitch options, from basic to decorative stitching, such as finished seams, narrow edges, hems and rolled hems. Sewing up to 1,300 stitches per minute, this efficient and easy-to-use model features adjustable stitch width and length for appliques, yarns and mAs. Its differential ³ adjusts the feed ³ the fabric to create smooth seams in very cool fabrics. The Singer ProFinish 14CG754 Serger also has an extra storage compartment and a built-in free arm for sewing sleeve puffs and hem pants, as well as a ³ top knife that can trim excess seam margins or retract when you don't need it (for example, during flat locking). Users commented that perhaps the most useful is the instructional DVD.Ranked as the top "budget selection" by the design of my costume, this model is also named "best bang for money" by BestReviews. The tool report chooses it as the best model for "entry-level pricing," Benefits: Easy to use, many features (such as two, three and four thread stitches), affordable priceDisadvantages: Heavy Amazon Although small, the Juki MO654DE Portable Thread Serger sewing machine offers great power and high-quality performance with a maximum speed of 1,500 points per minute.
